is that Git/GitHub needs to stay in synch. ur local directory, you need to push them nges to GitHub, you need to pull them into make changes to GitHub, and then try and ur local directory without pulling the first will get an error message telling you just

D-310 directory. try named module-1 e-1 of your CSD-310 directory and verify the

```
C:\CSD\CSD-310>dir
inux enter: CSD-310>ls
```

- Take a screenshot of the results.
- Open up a Word document, put your name and assignment number at the top. Paste the screenshot into Word. Save the document as yourlastname_assignment number (ex. Sampson-Assignment1_2) to the new module-1 directory you made in CSD/CSD310.
